ATHARV VED RAI

iOS Developer

atharvaved99@gmail.com +91 8319552362 Linkedin

Entry-Level iOS Developer with hands-on experience in application development, currently focused on building scalable mobile applications using Swift and iOS frameworks. Also experienced in Flutter development. Eager to contribute to production applications and grow as a mobile developer.

Projects

Cryptocurrency Portfolio Tracker

- Built a **cryptocurrency portfolio tracking iOS app** using **SwiftUI and MVVM**, integrating REST APIs to fetch live cryptocurrency prices, market statistics, coin details, and historical data.
- Implemented **Combine-based networking, search/filtering, image caching, custom charts, and Core Data persistence** to create a responsive and data-driven user experience.

FoodSwipe – Food & Restaurant Discovery App

- Developed **FoodSwipe**, a food discovery app that lets users browse dishes and restaurants through an interactive **swipe-to-match interface**, with gestures, animations, filters, and reusable UI components.
- Implemented **food/restaurant detail views, saved matches, navigation, and ordering/restaurant visit flows**, using structured data models and scalable SwiftUI components.

Muzic Streamer

- Built a **Spotify-inspired music streaming UI** using SwiftUI, implementing reusable components, horizontal/vertical scrolling sections, grids, custom cells, navigation, and responsive layouts.
- Developed **scroll-driven animations, pinned headers, custom ViewModifiers, data models, and reusable routing logic** to create a polished and maintainable iOS user interface.

Experience

Application Developer Intern, *FactSomeTV* Jan 2025 – March 2025

- API integration, database optimization, and version control best practices.
- Agile workflow, Git collaboration.
- Collaborated on UI/UX improvements, bug fixes, and performance optimization.

Lab Intern, *India Space Research Organisation* Dec 2024 – Jan 2025

- Completed a 30-day training program on Drone sessions, Student Satellites, Space Entrepreneurship and space education.

Skills

Swift | SwiftUI | Flutter | ARKit | Dart | CoreML & CreateML | MVC / MVVM | Version Control | Firebase & Cocoapod | REST APIs | JSON | Git, GitHub

Education

B.Tech in Computer Science and Engineering with AI & ML 2022 – 2026 | 6.77
Vellore Institute of Technology

Certifications

- CS50: Intro. to Computer Science | Harvard University
- AI Fluency: Framework & Foundations | Anthropic
- Foundations of Prompt Engineering | AWS

Co-Curricular Activities

FinTech Club, *Media Lead* Jan, 2023 – Nov, 2025 | Bhopal, India
Led coordination for 6 college events with 100+ participants per event. Mentored junior members and facilitated communication between core team and faculties.
